

INTEGRATED POLICY BALTEAU

(ISO 9001:2015 - 14001:2015 - 45001:2024)

Balteau – Grupo WEG, a traditional manufacturer of Instrument Transformers and supplier for the main electricity generation, transmission and distribution systems in the country, and some abroad, seeks through its Integrated Management System:

- **Provide quality products and services that meet the needs and expectations of customers, promoting improvements in their processes and systems.**
- **Comply with current legislation applicable to the environment and occupational health and safety, in addition to other requirements relevant to its processes, products and activities.**
- **Ensure the lowest degree of environmental impact of its products and processes, seeking to act preventively and protecting the environment through practices to minimize and control its environmental aspects, such as: consumption of natural resources, generation of solid waste, atmospheric emissions and liquid effluents.**
- **Provide safe and healthy working conditions for its workers, service providers and the general public, preventing occupational injuries and illnesses through measures to eliminate or mitigate hazards and risks, such as: electrical, mechanical and accidents, as well as others related to SST.**
- **Consult and promote the participation of workers and their representatives.**
- **Establish objectives and goals, aiming to continually improve the performance of the Management System.**
